THERAPEUTICS AND MANAGEMENT UPDATES

This course will provide neurologists with a comprehensive update in therapeutics and management across the major areas of neurology. Content is designed to be engaging and will be delivered in lecture, panel and video format by subspecialty faculty in each area of neurology. The following topics will be included: movement disorders, neuroinfectious disease, multiple sclerosis, dementia, stroke, epilepsy, critical care, emergency neurology, headache, and neuromuscular disease. Education covers state-of-the-art practices and evidence-based review with the goal of improving care for your patients with neurological diseases. At the conclusion of the meeting, attendees should be able to provide modern management of neurologic disorders based on the most current data and integrate the neurological and neurosurgical management of patients with acute neurovascular disease, movement disorders, brain tumors and epilepsy.

This activity has been submitted for 10 AMA PRA Category 1 Credits™ to Rush University Medical Center. Rush University Medical Center is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians and nurses.

This activity is being presented without bias and with commercial support.
